

DAY 1

Excel Basics

Aaj ke din hum Excel ki neev (foundation) seekhte hain: Excel ka interface, data entry, formatting aur basic calculations. Yeh sab aage ke har din ke liye zaroori hai.

Excel Interface

- Workbook: poori Excel file. Worksheet: workbook ke andar ki sheets (tabs).
- Cell: row aur column ka intersection (jaise A1). Range: cells ka group (jaise A1:C10).
- Ribbon: upar ke tabs (Home, Insert, Formulas, Data, View). Formula Bar: cell ki value ya formula dikhata hai.
- Name Box: selected cell ka address dikhata hai. Status Bar: sum, average, count quick dekhne ke liye.

Data Entry & Formatting

- Text, numbers, dates aur time enter karna. Text left aur numbers right align hote hain by default.
- Font, fill color, borders, alignment, merge & center, wrap text.
- Number formats: General, Number, Currency, Accounting, Percentage, Date.
- Rows/columns insert, delete, hide, unhide aur AutoFit column width.

Basic Calculations & Cell References

- Har formula = (equal) sign se start hota hai.
- Relative reference (A1): copy karne par change hota hai.
- Absolute reference (\$A\$1): copy karne par fixed rehta hai. F4 key se toggle hota hai.
- Mixed reference (\$A1 ya A\$1): sirf column ya row lock hoti hai.
- AutoFill: fill handle (cell ke corner ka chhota square) drag karke series ya formula copy karo.

Important Formulas / Shortcuts

Formula / Shortcut	Kaam (Purpose)
=A1+B1	Addition
=A1-B1	Subtraction
=A1*B1	Multiplication
=A1/B1	Division
=A1^2	Power (square)
=B2*\$E\$1	Absolute reference (E1 fixed, jaise tax rate)
Ctrl + C / V / X / Z / Y	Copy / Paste / Cut / Undo / Redo
Ctrl + S	Save file
Ctrl + Arrow Key	Data ke end tak jump
Ctrl + Shift + L	Filter on/off

Practice Tasks

1. Ek sheet me 5 students ke naam aur 3 subjects ke marks enter karo.
2. Total marks aur percentage formula se nikalo.
3. Header row ko bold karo, color lagao aur borders add karo.
4. Ek tax rate ek cell me rakho aur \$ (absolute reference) use karke sabhi prices par GST calculate karo.

Pro Tip: Formula likhne ke baad Enter dabane ki jagah kabhi kabhi Ctrl + Enter use karo taaki selected cell hi rahe.
